A horde of Apes

Fun, games and experiments in the woods. You don't need to calculate any coordinates, these we provide. Only the location of the final needs to be determined . Loop from Parking approx. 3 miles

Lyrics of a German Folkssong, dealing with a horde of Apes of which one stole the coconut ….
Die Affen rasen durch den Wald,
der eine macht den andern kalt.
Die ganze Affenbande brüllt:
„Wo ist die Kokosnuß?
Wo ist die Kokosnuß?
Wer hat die Kokosnuß geklaut?"

Who stole the coconut we know. But where it is now, is what you need to investigate…

Louis the youngest ape snatched the coconut and hid it pretty good. Follow him and find the coconut. You will find **his** "wanted poster" repeatedly on most stages, remember the number, you'll need it to determine the final coordinates (picture).

In case you run into problems at a stage, it is not a crying shame (Germans call it the Ape's shame) The results are deposited for you along the track. Where, you will find out.

We want to present the unusual to you. Louis didn't even stop at the bonus and misplaced it (GC1W5X9), find it along the way. But there is one log requirement: Make a fool of yourself (in german it would read : make an ape of youself). Have fun.
